3M-NANO is the annual International Conference on Manipulation, Manufacturing and Measurement on the Nanoscale; it will be held in Zhongshan, China. The ultimate ambition of this conference series is to bridge the gap between nanosciences and engineering sciences, aiming at technology opportunities and new markets. The advanced technologies for manipulation, manufacturing and measurement on the nanoscale promise novel product developments and market applications. Scientists working in research fields related to 3M-NANO topics are invited to submit papers. All accepted full papers (presented at the conference and following IEEE format) will be submitted in IEEE Xplore database and EI Compendex. Selected papers will be recommended for publication in the IEEE Trans. on Automation Science & Engineering, Int. J. of Nanomanufacturing, IFAC Mechatronics, Int. J. of Optomechatronics, J. of Micro-Bio Robotics, Journal of Bionic Engineering, Light (Science & Applications), Optics and Precision Engineering, International Journal of Extreme Manufacturing and Material Today Bio and other SSCI/SCI journals.

Organizers: Changchun University of Science and Technology, China
International Research Centre for Nano Handling and Manufacturing of China
Changchun University of Science and Technology, China
Aarhus University, Denmark
University of Warwick, UK
University of Bedfordshire, UK
Ministry of Education Key Laboratory for Cross-Scale Micro and Nano Manufacturing, China
International Joint Research Center for Nanophotonics and Biophotonics, China
State Key Laboratory of High Power Semiconductor Laser, China
International Society for Nano Manufacture, Measurement and Manufacturing
IEEE Nanotechnology Society

Topics: Specific topics include, but are not limited to:

- Nanomaterials and applications
- Graphene, 2D materials and applications
- Nanoparticles, nanowires and nanotubes
- Nanoelectronics and nanomagnetics
- Nanophotonics and plasmonics
- Nanomechanics and nanomechatronics
- NEMS and their applications
- Nanofluidics
- DNA detection and sequencing
- Bio-nano devices and applications
- Nanotechnology and nanomedicine
- Nanotech protection

High-profile keynote talks (20-24) on selected topics in manipulation, manufacturing and measurement on the nanoscale will be offered.

Social events: 3M-NANO aims at encouraging long-term partnerships and collaborative activities between experts in nanosciences and in engineering sciences. Get-together events will be organized by 3M-NANO as part of this effort.

Venue: Zhongshan City is a prefecture-level city governed by Guangdong Province, governing 24 towns and situated in the central south of the Pearl River Delta, bordering on Guangzhou to the north and adjacent to Hong Kong and Macao, with a total area of 1800 square kilometers Zhongshan is the hometown of Sun Yat-sen, the great revolutionary forerunner of China, and a famous origin of overseas Chinese found in 87 countries and regions, with over 8,000 people living in Hong Kong, Macao and Taiwan.

Important Dates

Full paper submission: 1 May 2024
Proposals for special session (5-6 papers): 1 May 2024
